

Sylvie Beljanski, President of Natural Source International, Ltd

Sylvie Beljanski was born in New York City to French parents while her father, biochemist Mirko Beljanski, PhD, conducted research work with Nobel Prize Winner Severo Ochoa at the New York University Medical Center's Bellevue Hospital. As her parents joined the Pasteur Institute in Paris, Ms. Beljanski returned to France with her family prior to her first birthday. She was raised and educated in Paris, and she completed her undergraduate studies at the Sorbonne. She then went on to pursue a law degree and was admitted to the French Bar in 1995.

In 1996, Ms. Beljanski became President of Natural Source International, Ltd., which offers dietary supplements stemming from her father's lifetime of research at the Pasteur Institute. She is also the Vice-President of the Beljanski Foundation, Inc, a not-for-profit organization whose mission is to further the research begun nearly fifty years ago by molecular biologist Mirko Beljanski, PhD, at the Pasteur Institute in Paris, France.
